RE: Characterization of Gloveboxes at the Rocky Flats Environmental Technology Site (RFETS)

Dear Ms. Berardini:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the "Division") has reviewed your letter dated September 25, 2001 and the information attached to it regarding the characterization of gloveboxes at the Rocky Flats Environmental Technology Site (RFETS). The Division has determined that your September 25, 2001 letter presents a reasonable approach for characterizing gloveboxes as non-hazardous waste as long as they are not contaminated with listed hazardous waste. Since the gloveboxes as described in the September 25, 2001 letter are low-level radioactive non-hazardous waste destined for disposal at the Nevada Test Site, it will be necessary to obtain concurrence from the State of Nevada for this non-hazardous characterization. If you have any questions concerning these matters, please contact James Hindman at (303) 692-3345.

Sincerely,

Fred Dowsett, Compliance Coordinator
Hazardous Materials and Waste Management Division
